

HORECA Series

Kineticico Simplex H

The new Kineticico Simplex H is a single tank water softener, which offers full demand driven flexibility.

Kineticico systems have been expertly designed to eliminate limescale problems, helping to minimize waste, energy usage and the impact on our environment.

- Uses "ion-exchange" to soften the water
- High performance systems that regenerate on demand
- Designed to withstand hard working conditions

Specifications

Product Name	Kineticico Simplex H
Width	230 mm
Depth	410 mm
Height	555 mm
Weight	25 kg
Performance	
Min Flow	1,1 Lpm
Max Flow @ 1 Δ bar	20 Lpm
Hardness as CaCO ₃ (max)	555 mg/L
Regeneration	
Salt Used	0,27 kg
Capacity	10 kg
Time	11 mins
Volume	25 Litres
System	
Media Volume	4,5 Litres
Inlet/Outlet Connections	Custom
Maximum Temperature	49°C
Inlet Pressure (min/max)	1,0 - 8,6 bar

Features:

Single tank

Non-electric

Compact design

Movable

50 YEARS Experts

Why choose the Kineticico Simplex H?

The Kineticico Simplex H is ideal for the smaller kitchens, where soft water is not required 24/7.

It has a fast regeneration time, and it only regenerates when the capacity has been exhausted, improving performance and reducing salt consumption.

With this in mind, it's no wonder that Kineticico technology is the world leader.
